

THE TURKISH SOCIETY OF CARDIOVASCULAR SURGERY RESIDENTS CLUB

Mission Statement

Residents Club, in corporation with the TSCVS, is committed to continuous improvement and fostering of experiences and collaboration for the residents, which promotes sense of community and responsibility, mentor-mentee relationship, and educational opportunities and encourages involvement with national and international communities in the guidance of ethical principles.

Aims

1. Encouraging residents' membership to TSCVS.
2. Improving the participation of residents in TSCVS activities aiming to build up experience and develop skills regarding professional management for associations.
3. Improving residents' work and training conditions by presenting projects and solutions to TSCVS.
4. Encouraging residents' participation and scientific contribution to national and international symposiums, congresses, and courses held by TSCVS.
5. Promoting collaboration between the international residents' committees.
6. Understanding the value of public health in practice of medicine and contribution to collaborative requirements in public health services.
7. Promote and motivate interaction and cooperation between every cardiovascular surgery resident in Turkey.
